

January 25, 2020

Good Morning Tony,

Thanks for forwarding your draft of a good neighbor agreement as you suggested at our last community meeting. It incorporates many of the steps Pacific Power has already agreed to take as raised and discussed by the community and neighbors at our meetings to mitigate the impacts of the Kennedy substation.

The new renewable energy/storage items that you added, we have already reached out to you to set a date to discuss and await the date that suits your earliest convenience.

Per our agreed upon next steps last Thursday Pacific Power will review the meeting notes and incorporate them in the draft community compact.

We will forward it to community meeting attendees prior to our next community meeting. I will attempt to set the meeting with notice for two weeks out after I confirm the space with St Charles.

Thanks again,
Sheila Holden
Regional Business Manager
Pacific Power
